

- General Notes:**
1. This survey is referenced horizontally to the North American Datum of 1983 (NAD83) and projected on the New York State Plane Coordinate System (Central Zone) and vertically to the North American Vertical Datum of 1988 (NAVD88).
 2. North arrow as shown indicates Grid North referenced to NAD83 and projected on the New York State Plane Coordinate System (Central Zone).
 3. The referenced horizontal and vertical control station is a National Geodetic Survey monument stamped "BMG A". BMG A is Secondary Airport Control Station established by the National Geodetic Survey. Elevation 1,626.53 feet.
 4. The location of underground utilities shown herein was compiled from parcel evidence, record drawings, and physical evidence located during the field survey. The surveyor makes no guarantee that the underground utilities comprise all such utilities in the area, either in service or abandoned. The surveyor neither does nor warrant or certify that the underground utilities are in the exact location indicated although he does certify that they are depicted as accurately as possible from the information available. This surveyor has not physically located the underground utilities.
 5. All above and secondary sewer structures are in good condition (unless otherwise noted) as of the date of the field survey.
 6. At the time of this survey there was approximately 6 to 8 inches of snow cover.
 7. The information shown herein is based on an instrumented survey completed on January 11, 2010.

- Reference Drawings:**
